OCT 1 4 ZUUD

PTO-90C (Rev. 10/03)

	Application No.	Applicant(s)
	10/647,754	FORBES, CHRISTOPHER SCOTT
Office Action Summary	Examiner	Art Unit
	Stefan Staicovici	1732
The MAILING DATE of this communication app Period for Reply	pears on the cover sheet with the c	correspondence address
A SHORTENED STATUTORY PERIOD FOR REPLY WHICHEVER IS LONGER, FROM THE MAILING DA Extensions of time may be available under the provisions of 37 CFR 1.11 after SIX (6) MONTHS from the mailing date of this communication. If NO period for reply is specified above, the maximum statutory period versions of the provided period for reply will, by statute any reply received by the Office later than three months after the mailing earned patent term adjustment. See 37 CFR 1.704(b).	ATE OF THIS COMMUNICATION 36(a). In no event, however, may a reply be tir will apply and will expire SIX (6) MONTHS from the cause the application to become ABANDONE	N. nely filed the mailing date of this communication. D (35 U.S.C. § 133).
Status		
1) Responsive to communication(s) filed on 29 D	ecember 2003.	
2a)☐ This action is FINAL . 2b)☒ This	action is non-final.	
3)☐ Since this application is in condition for allowar	nce except for formal matters, pro	osecution as to the merits is
closed in accordance with the practice under E	Ex parte Quayle, 1935 C.D. 11, 4	53 O.G. 213.
Disposition of Claims		
i 4)⊠ Claim(s) <u>1 and 2</u> is/are pending in the applicati	ion.	
4a) Of the above claim(s) is/are withdraw		
5) Claim(s) is/are allowed.		
6)⊠ Claim(s) <u>1 and 2</u> is/are rejected.		
7) Claim(s) is/are objected to.		
8) Claim(s) are subject to restriction and/or	r election requirement.	
Application Papers		
9)⊠ The specification is objected to by the Examine	r.	
10) \boxtimes The drawing(s) filed on <u>8/26/2003</u> is/are: a) \boxtimes	accepted or b) objected to by	the Examiner.
Applicant may not request that any objection to the	drawing(s) be held in abeyance. See	e 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correct	ion is required if the drawing(s) is ob	jected to. See 37 CFR 1.121(d).
11) The oath or declaration is objected to by the Ex	aminer. Note the attached Office	Action or form PTO-152.
Priority under 35 U.S.C. § 119		·
12)☐ Acknowledgment is made of a claim for foreign	priority under 35 U.S.C. § 119(a))-(d) or (f).
a)□ All b)□ Some * c)□ None of:

DETAILED ACTION

Specification

- 1. The abstract of the disclosure is objected to because the abstract should not refer to purported merits or speculative applications of the invention and should not compare the invention with the prior art. Correction is required. See MPEP § 608.01(b).
- 2. The disclosure is objected to because of the following informalities: on page 5, lines 12, the limitations of claim 1 should be included in the specification or the reference to claim 1 should be deleted. Appropriate correction is required.

Claim Objections

3. Claims 1-2 are objected to because of the following informalities: a claim should be a single phrase beginning with a capital letter and ending with a period. Appropriate correction is required.

Claim Rejections - 35 USC § 112

- 4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 5. Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1732

Claim 1 recites the limitation "the first layer" in line 8. There is insufficient antecedent basis for this limitation in the claim. Claim 2 recites the limitation "the depressions and details" in lines 3-4. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 103

- 6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 7. Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dixon et al. (US Patent No. 5,013,278) in view of Jarboe et al. (US Patent No. 4,960,622).

Dixon et al. ('278) teach the basic claimed process for making three-dimensional features for a diorama by molding a latex material (see col. 3, lines 25-26).

Regarding claims 1-2, although Dixon et al. ('278) teach latex molding, Dixon et al. ('278) do not specifically teach the individual molding process steps. Jarboe et al. ('622) teach a process for molding an impression of a rock including, applying a first layer of uncured latex onto a mold (rock), applying a fabric (gauze) onto said first uncured latex layer, applying a second layer of uncured latex onto said fabric layer, curing said latex material and stripping said rock impression from said mold (see Abstract). It is submitted that the uncured latex material seeps through the fabric in order to form a composite. Therefore, it would have been obvious for

Art Unit: 1732

one of ordinary skill in the art to have used the process of Jarboe et al. ('622) to mold the threedimensional features for the diorama obtained by the process of Dixon et al. ('278) because, Jarboe et al. ('622) specifically teach an efficient molding process for molding a latex diorama, whereas Dixon et al. ('278) suggests known molding methods of a diorama, hence requiring the teachings of Jarboe et al. ('622) to function as described.

Conclusion

- 8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
- Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stefan Staicovici, Ph.D. whose telephone number is (571) 272-1208. The examiner can normally be reached on Monday-Friday 9:30 AM to 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Colaianni, can be reached on (571) 272-1196. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
